HAYAKUM

Al Khoory Hotels, a distinguished member of the Al Khoory Group, an Emirati family-owned and managed business, welcomes you to explore strategic partnership opportunities. With a strong presence in Dubai and a commitment to sustainable growth, we seek to expand our reach and enhance our service offerings. We believe in creating mutually beneficial relationships that drive success, grounded in our deep understanding of the local market and cultural values.

OUR MISSION.

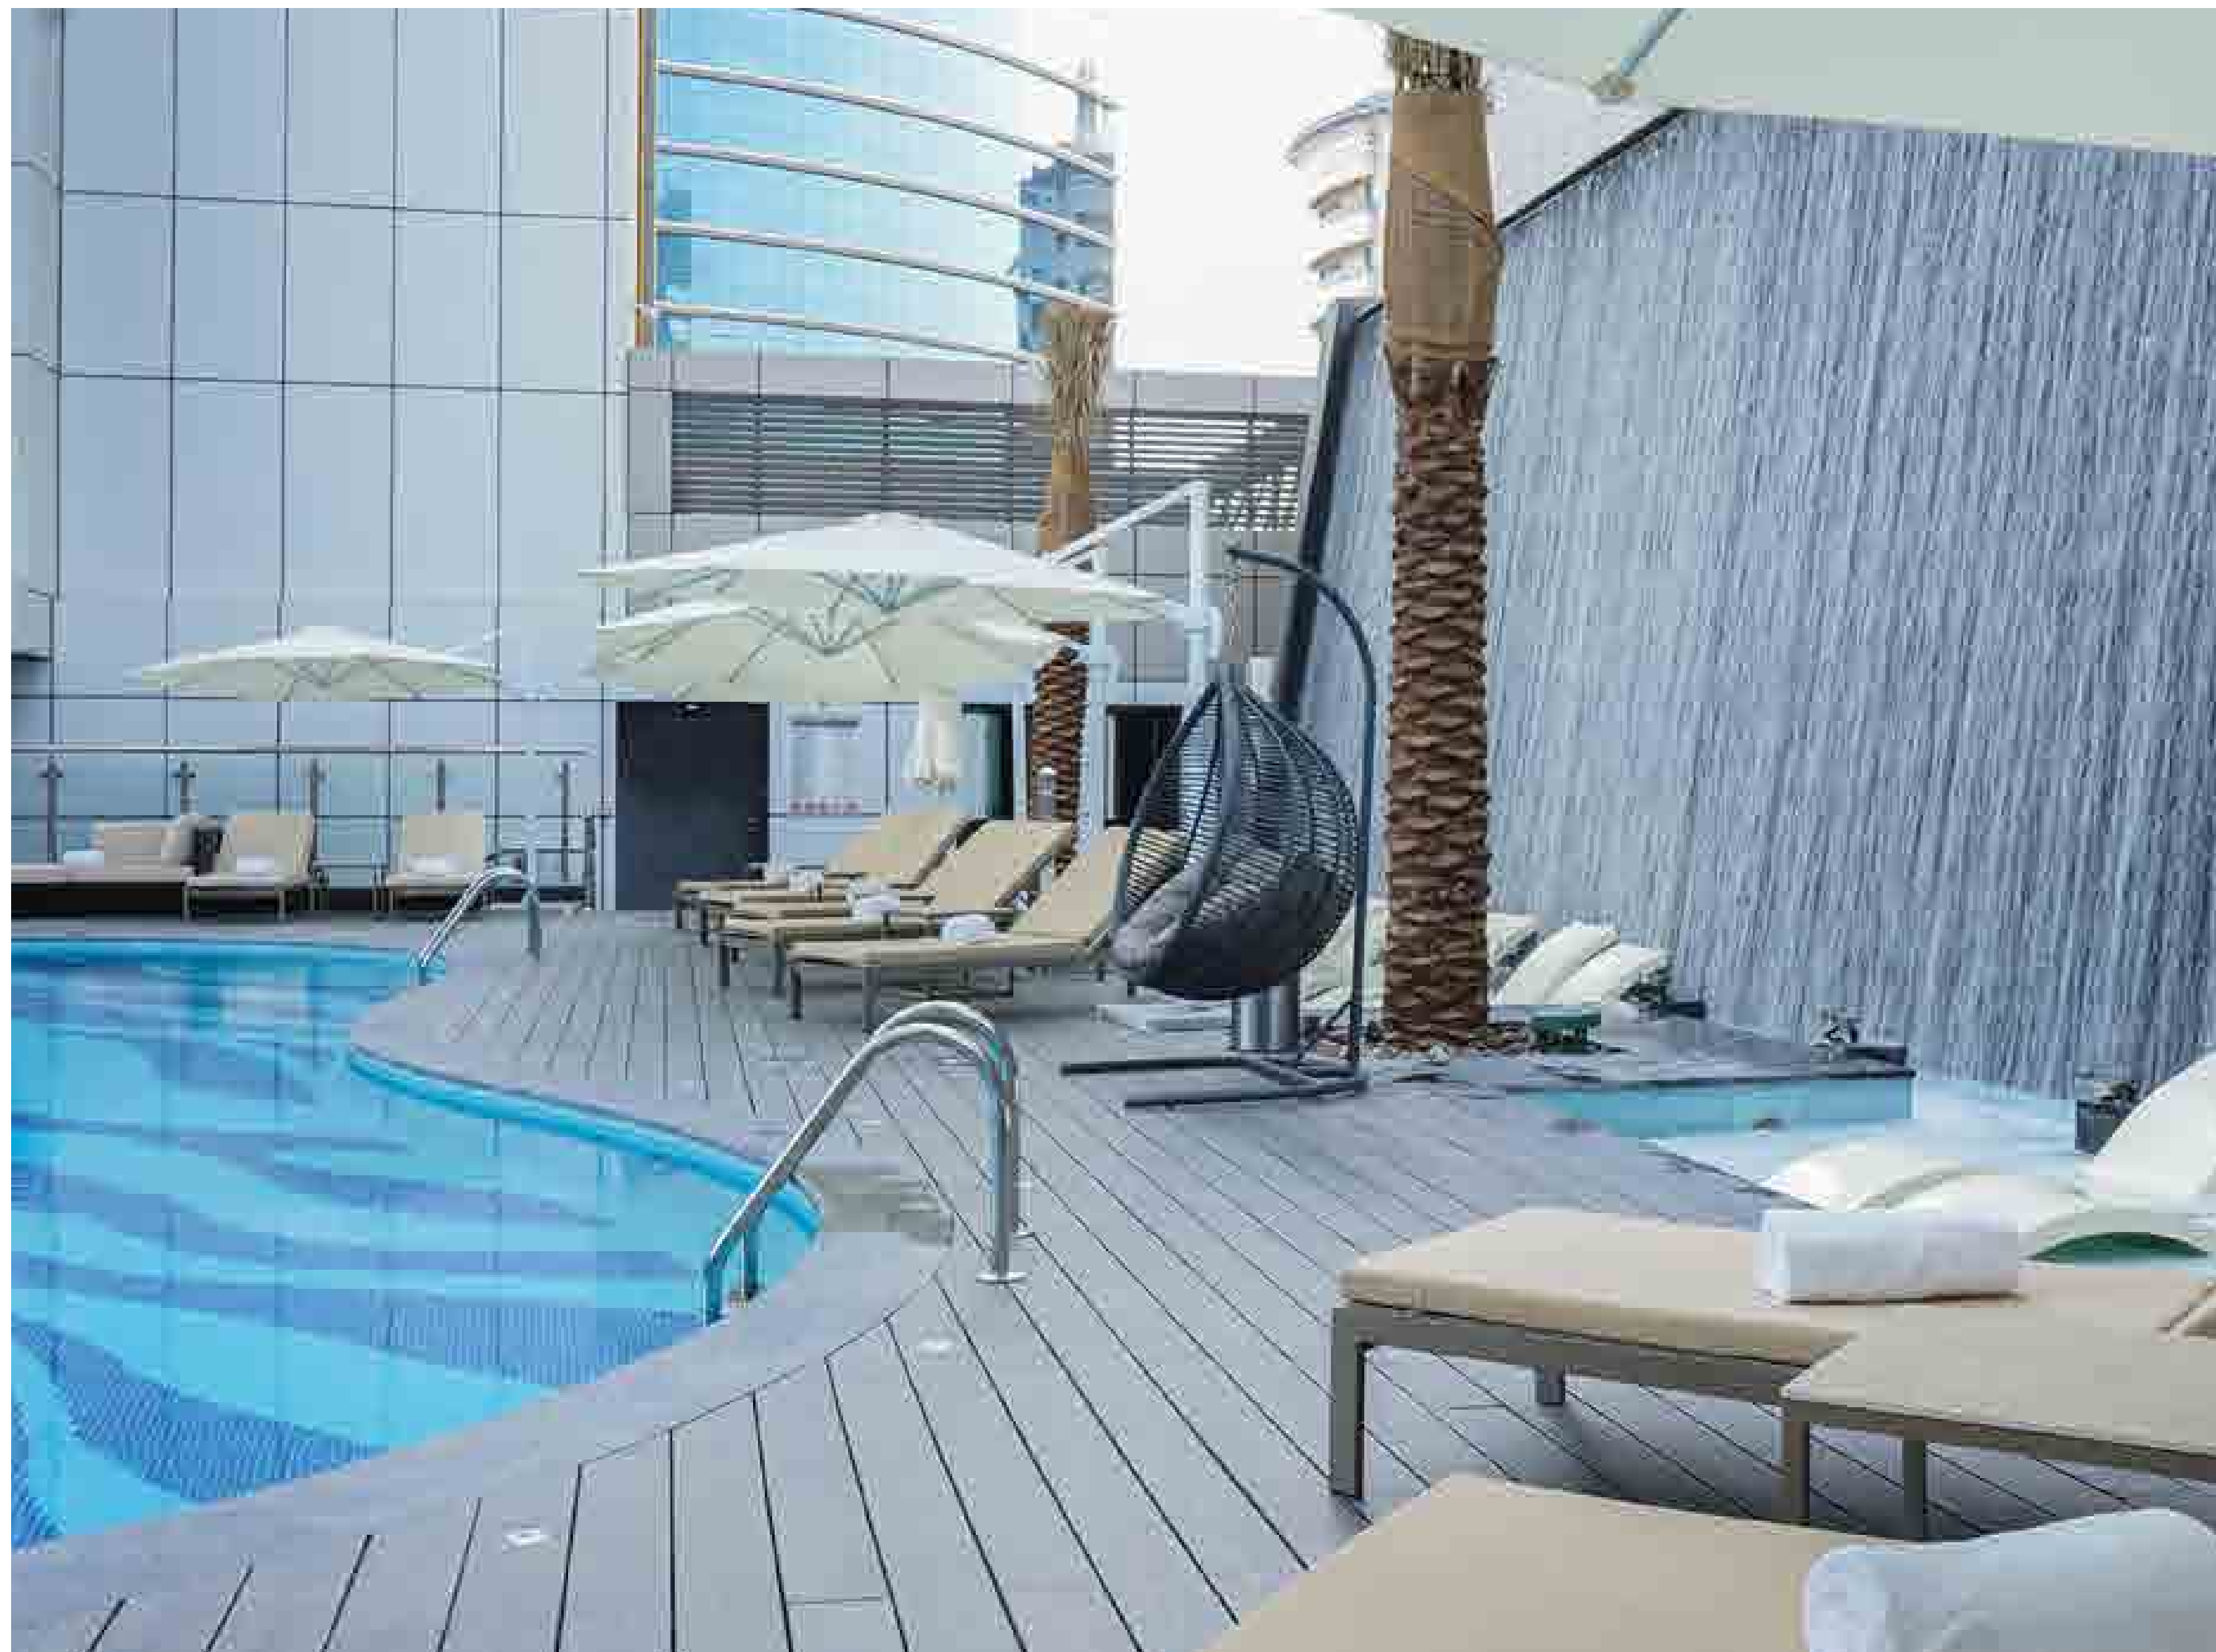

To deliver unparalleled hospitality experiences by combining traditional Emirati hospitality with modern services, while promoting sustainability, community engagement, and a family friendly environment in our hotels.

OUR VISION.

To set the benchmark as the regional leading UAE hospitality brand by integrating Emirati culture with international standards of quality, creating family friendly experiences, and leading the industry in sustainable innovation.

CORE VALUES

Our Integrity

Uphold the highest standards of honesty and transparency in all our interactions internally and externally.

Employee Development

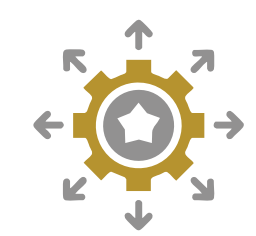

Invest in our employees' growth through continuous learning and fostering a culture of ownership and innovation.

Our Sustainability

Commit to environmental stewardship by implementing sustainable practices and innovations in our operations.

OUR GOALS

Market Expansion

Strengthen our position in Dubai, aiming for a controlled expansion into regional markets over the next 10 years.

Workplace Culture

Create an agile work environment with regular training & development programs, aiming for a 20% increase in employee satisfaction by 2026.

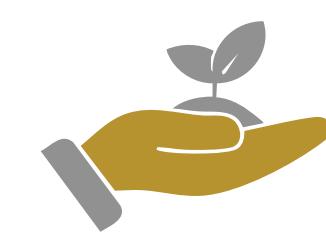

Enhancing Guest Experience

Continuously gather guest feedback to adapt our services and enhance the overall experience, aiming for a 90% guest satisfaction rate.

Partnership Development

Establish partnerships with at least three local brands by 2026 to enhance community support & promote sustainable practices.

Sustainability Initiatives

Implement measurable sustainability practices, such as reducing waste & energy consumption.
